Experience

Web Developer | OFE Fulfillment

Mooresville, NC | November 2019 - Present

- Developed and maintained responsive and user-friendly websites using HTML, CSS, JavaScript, and other web development technologies.
- Communicated with clients and stakeholders to gather requirements, provide updates, and ensure project success.
- Collaborated with design and content teams to create visually appealing and effective websites that met project goals and business objectives.
- Developed an inventory management system that improved accuracy and efficiency by reducing shipping errors and updating sales channels autonomously.
- Deployed custom applications and databases as Docker containers on Ubuntu virtual machines, enabling more efficient deployment and maintenance.
- Implemented a data backup solution to regularly and securely backup our cloud data on-site, providing added protection against data loss and downtime.

Education

Business Administration (BS): Finance Concentration — May 2019

North Carolina State University — Raleigh, NC
