<b>Other:</b>	Git, GitHub, VSCode, unit testing

## Experience

---

**Web Developer** | RnA ReSet

Mooresville, NC | November 2019 - Present

- Operated as the sole developer, creating end-to-end solutions to support all departments including sales, marketing, customer service, and operations.
- Communicated with clients and stakeholders to gather requirements, provide updates, and ensure project success.
- Developed an inventory management application that reduced shipping mistakes, kept sales channels updated, and provided purchasing recommendations.
- Created data pipelines from various applications into Salesforce and Google Cloud Storage for marketing and analysis.
- Customized Shopify and WordPress sites with plugin and theme development to support business objectives.
- Implemented a data backup solution to regularly and securely backup our cloud data on-site, providing added protection against data loss and downtime.

## Education

---

**Business Administration (BS): Finance Concentration — May 2019**

North Carolina State University — Raleigh, NC
